Summary

Highly motivated and results-oriented Front-End Developer with 2 years of experience, crafting engaging and performant user interfaces using Angular. Proven ability to drive the business impact through innovative UI/UX design, performance optimization, and seamless collaboration with the back-end teams. Eager to leverage my expertise and growth mindset to tackle challenging projects and contribute to a high-performing team.

Work Experience

Innominds Software India Pvt Ltd, Hyderabad

Aug 2021 - Sep 2023

UI Developer - Engineer

- Collaborated closely with visual designers to translate wireframes into implemented UI components and working alongside back-end developers to ensure tested and production-ready UI code.
- Developed code for user interface and contributed for developments and testing of a Single Page Application (SPA) using Javascript framework **Angular**, **HTML5**, **SCSS**, **Typescript** and **Bootstrap**.
- Created reusable Typescript components and services to facilitate REST API consumption through Angular component-based architecture and wrote Unit Test Cases using testing frameworks such as **Jasmine** and **Karma**.
- Significantly improved the performance of an MLM application platform, driving a 30% increase in conversion rates through improved UI/UX design and performance optimization.
- Implemented responsive design principles to deliver seamless user experiences across all devices.

Education

Bachelor Of Engineering in Electrical and Electronics Engineering, 2020

St.Joseph's College of Engineering, Chennai, India.

Projects

Vorwerk – DS Pro

Jan 2022 - Sep 2023

Angular 7, Typescript, HTML, SCSS, Bootstrap, Git

- Developed high-performance, responsive web applications and optimized the code to improve performance and by maintaining the coding standards.
- Integrated REST APIs seamlessly, collaborating effectively with back-end teams to define API contracts and ensure smooth data integration.
- Explored and integrated reactive programming with the RxJS to manage the asynchronous data flows and complex interactions.
- Wrote comprehensive unit tests using Karma and Jasmine frameworks to ensure code quality and maintainability.
- Created custom Angular pipes to extend functionality and reusability.

Discern Science Avatar

Aug 2021 – Jan 2022

Angular 11, Typescript, HTML, SCSS, Bootstrap, Git

- Crafted pixel-perfect, responsive UI pages and efficiently integrated RESTful API web services using HttpClient, seamlessly rendering JSON responses to deliver dynamic content and enhance application functionality.
- Utilized RxJS for reactive programming, effectively managing asynchronous data flows and complex interactions.
- Adhered to agile methodologies and utilized Git for version control, fostering effective collaboration and code quality within the development team.

Skills

HTML5, CSS3, Bootstrap, Tailwindcss, JavaScript, Typescript, Angular Js, React.Js, Git, Github, Gitlab

Certifications

- Business English Certification conducted by Cambridge University, 2019.
- The Web Developer Bootcamp on Udemy.
